Solder Paste for Dispensing (small cartridges)

Almit solder paste, excellent Almit quality available in small cartridges, for manual or automatic dispensing.

Almit-Solder Paste

Several benefits that Almit solder paste offers for stencil soldering applies for dispenser too, when dispensing manually or by automated dispenser. Through strict compliance to the specified particle size, syringes with very small diameter needles are also capable of applying the paste evenly. The precise consistency of the solder paste guaranties the workability through the entire manufacturing process.
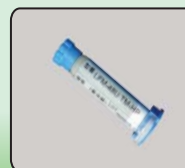

5cc Cartridge

5cc cartridge for manual dispensing or automatic application with dispensing machine, mechanical or with compressed air. With Luer-lock connection.

Available powdersizes: Lead-free solder paste X, W, U, N.
Leaded solder paste X, W.

|	
Diameter:	~ 14,3 mm
Lenght:	~ 68,3 mm
Net weight leaded:	~ 25 g
Net weight lead-free:	~ 20 g

10cc Cartridge

10cc cartridge for manual dispensing or automatic application with dispensing machine, mechanical or with compressed air. With Luer-lock connection.

Available powdersizes: Lead-free solder paste X, W, U, N.
Leaded solder paste X, W.

|	
Diameter:	~ 19,1 mm
Lenght:	~ 88,9 mm
Net weight leaded:	~ 40 g
Net weight lead-free:	~ 40 g

30cc Cartridge

30cc cartridge for manual dispensing or automatic application with dispensing machine, mechanical or with compressed air. With Luer-lock connection.

Available powdersizes: Lead-free solder paste X, W, U, N.
Leaded solder paste X, W.

|	
Diameter:	~ 25,4 mm
Lenght:	~ 115,9 mm
Net weight leaded:	~ 80 g, ~ 100 g
Net weight lead-free:	~ 80 g, ~ 100 g

55cc Cartridge

55cc cartridge for manual dispensing or automatic application with dispensing machine, mechanical or with compressed air. With Luer-lock connection.

Available powdersizes: Lead-free solder paste X, W, U, N.
Leaded solder paste X, W.

Diameter:	~ 25,4 mm
Lenght:	~ 173,0 mm
Net weight leaded:	~ 150 g
Net weight lead-free:	~ 150 g

100cc Cartridge

100cc cartridge for automatic application with dispensing machine, mechanical or with compressed air. With Luer-lock connection.

Available powdersizes: Lead-free solder paste X, W, U, N.
Leaded solder paste X, W.

Diameter:	~ 35,8 mm
Lenght:	~ 191,0 mm
Net weight leaded:	~ 250 g
Net weight lead-free:	~ 250 g

MY500 Cartridge

Special Cartridge for use in MYDATA Jet Printer MY500.
